

Serve with South Sound GREEN!

Puget Sound Water Quality Educator 2026-2027

South Sound GREEN is a watershed youth education program at the Thurston Conservation District in beautiful Western Washington. We focus on connecting students and teachers to their watersheds, fostering environmental stewardship and creating positive experiences in nature.

The **Water Quality Educator AmeriCorps Member** will support this mission by assisting with numerous field education programs, with topics including water quality, salmon ecology, tree planting, marine science, and more!
